OTHER WITH UNITED TO THE PROPERTY OF THE PROPE

The era f 'beems' la gas in this country The era of 'booms' is pass in () is country. From this time on our development will be in the slow natural order of things. To some will spring up in new places, on post out of your lowns already established with grown that you it the will be no more of the mish in grown that which in a single twelve month created have deter goodly clites in ease of the wishing in three years ago. I Booms have their advantages on they have also they the traditional countries and they have also they there are the distributions. they have also the r ilsadvantages. Ils country had give through the spectrum, and we believe it is quite will ing to give up incertain and specific view could now for the natural relation in cidental tender of development. Alm exercery town in the country has helies

particular and per prospect sealing in to fix nine. No that all of these propers have fulfill seas fixed by fixed his no were. Portland, first of all, expected winder foliatings through the Northern Pacific in I other rathroads. She looked to die (hina try is, great size and to make ter trich. It is minsing to examine the difference between the hopes of a few years ago and the realities of the day. We have the radioads, but where is the wonderful prosperty which was expected to come with them? Our (hum trade is nothing,

which were so dear and seemed so near Portland is not the only town which cher-ished high ambitions. We puss by the Puget sound tewns experience will teach them what it night seem inde in The Original to say; it the theory which were by given program provides by to the places which are in closer neighborship with us Five years ago the people of Walla Walla could demonstrate to a certainty that their town ed Again, it is amusing to compare the pros-pect with the reality. The town of Roseburg. in the heart of our great western region, expected to be the distributing point for a wide extent of country. It expected to retain all the business it enjoyed through its position us the terminus of the Gregon and California road, it expected to gate more begins and (attornia road, attornians of mother road (to be built) connecting it with (cos ba) and it had other posspects equally pleasing its hopes were high—but with these hopes in mind, look at the result. It is useless

create them. Each has progressed in propertion to the development of it ose things which go to make up its natural support. Italicalis have helped out, they have been a factor by aiding the husiness and productive more ments of

### HALD TIMES THE TREE TIMES

Anybody who will take the ironlife to 170k bent the the surface of things will sen that in apita of the so-called Land times, the country is really getting on well. The bard times are really the saying times, the "io min L" times traffic times when people are empowershing then selves. It would be initially to convince the man in need of englyment that this is the case bulk in nume the less so fark times are the natural

reaction of over-times are to material reaction of over-time times, of spenting more than ownston warrants. In money making externments, prousing enterpressing out to be fattons, and when this occurs there is a purching in all round, and thus we have have times Can talists feel sore over their losses, and need a few months to become reconciled to the idea of further investments. The present sea-

idea of further investments. The present season of adversity was predicted four years ago, when prices went souring no the clouds. There was the model price and there was the actual cost, and then there was the herpest price t which they article call the had lewn it was, therefore, dimply a matter of althoristic to wive that the "flush these" were up eat, and that it was folly to believe that people we consider the profits they appeared to be making. The age of statum and set crick in his hought the melions of the world into compelition, and its effects cannot be carpeds. Prorefored prices, and to properly an open poly, reach a higher point than is justice. able under the curcumstances, the law of gray tation will shut up the male, drive off the wilk men, ruin the capitalists and sell off the stock for anything offered. This is healthy to the country at large. If there were no check on mon polists, they would not be con ent with two at a prices of the cost of their goods, but would im the prices att unknown figures. When but times come it is no sign that the people gener-ally are getting poort.r-guther the reverse The reaction is a display of wisdom it will be the dear school of experience. It will be lasting penent if it e per it as pure the hitstornot leigh so flysh in this binans, in rise down cast when the betting it everything weigh to have fidlen out.

it I letty, who leartist a transcribe its larkest hour and who has gotten his it which tailedly in the form of the Chinese mission, has appointed his son, an inexperienced how sho dent, as accreting of legistic. He purposes to make the job pay. He will stuit for Chine is soon as he can get posted on the Chinese present on the Chinese property from the Chinese property. tion by hobnet bing with the Chinese minister at Washington. In order trigol posted in the offosite extreme views he impit hot nob will louis Keanney on the way out.

Prof. Richard H., Chornton fermishes in interesting analysis of the weather during the pas-year, that being the period of his residence here It has been only a fair average year, and we are at a loss to know how there ever came to be "much misconceptlen" respecting our climate, which is certainly one of the blandest on the

hopes in mind, look at the result. It is useless to go into details, in the cases of Iack sonville, Corvalis, Astoria, and twenty other towns. They are all "in the same loat" with P rivad, Walla Walla and Rosoburg.
All of these places have grown during the last few years and, all things considered their progress has been notable, but not one of them has notably benefited by what a few years ago seemed its best prospect and what its main hope. They have grown, and how. By the natural development of the combifices which created them. Each has progressed in proper e country, but they have not brought as wealth

### Why Everybody Uses

# Zora Zaling Poweer.

It is the best baking powder.

It is made from absolutely pure materials. It is free from alum

It is free from lime. It is free from every impurity.

It is absolutely pure It is the only absolutely pure baker powder made.

Its absolute parity and wholesomen + kure never been questioned. ...

It is a perfect baking powder It siways makes light, sweet and wh some brend cake and biscout.

If has stood the crunial test of the kitel en for twenty years without a single fini-

verience the most sensitive stomach

It is always uniform in its work. It is of the highest strength, having greater leavening power than any other.

It is the most economical in use. It is always fresh, and will keep its full strength any time, in any climate.

It is indorsed by government chemists as absolutely pure and wholesome and report-

ed for government use, It is certified by the most summent chemasts as the purest and be t baking powder

Its superiority over all other baking powders in strength, purity and wholesomeness is universally conceded.

"t has proved its merits so conclusively that its sales are greater than the combished sales of all other balang powders in

WOOL-Receipts for the week ending 5th 1 last week and 680 647 lbs for the week ending 5th 1 last week and 680 647 lbs for the week ending 5th 1 last week and 680 647 lbs for the week ending 5th 1 last valley and 8.28 666 lbs eastern Oregon. The latter this is fast being marketed, early estimates piacing it at 10 000 000 lbs but later ones making it larger i rotholy two it two and one 1 elf million ibs remain to be shipled. The market rules quietes make a slowly bessenting demand and east or all vices. Buyers still take freely of desirable caps but at fully 2000 best buries of the season. East erm Oregon Istquoted at 126164, walley at 116216 and 1 myona at 156216 the latter in no as ling investment. Eastern markets are quoted irregular sind the markets are lardly so firm to sell in. A private Boston deroular quotes clothing yalley Ore too at 176.23 and eastern 16210c. The extremes being in grades that in orght its here one mouth ago. It will be seen that the shipping margin is not with and as hivers are straid of still lower prices the seller has best come ground At San Francisco an easier tone preval a hover. Insting the market more in their facor a hough qualtation are left unchanged by most reporter. Any stong more turn too in this market would be a condeale, bu there are offer that would command appreciable change especially in regard to valles. Minufacturers display no desire to stock up freeds if developed in the color of the desire in land but of in these current rates have been paid. In Botton the past week is reported as having ben did and the past week is reported be void such parcels as have been needed to 60 orders in land but for those current rates have been paid. In Botton the past week is reported as having ben did and
